APPLICANT'S STATEMENT

I understand Byers Engineering Company may thoroughly investigate all statements and data given on this application, on related papers, and in interviews. I authorize all individuals, schools, and firms named therein to provide any information requested about me (except my current employer if requested) and release all parties from all liability for any damage that may result from furnishing such information to you. I understand that a background investigation will be performed, including, but not limited to, credit, criminal, and driving history.

I understand that this application is not a contract of employment. I understand that Byers Engineering Company follows an "employment at will" policy, in that I or the employer may terminate my employment at any time or for any reason consistent with applicable federal or state law. This "employment at will" policy cannot be changed verbally or in writing unless the change is specifically authorized in writing by the President of this company. I also understand that federal law prohibits the employment of unauthorized aliens, that all persons hired must submit satisfactory proof of employment authorization and identity, and that failure to submit such proof will result in denial of employment.

I understand that this application will be active for a period of one year and after that time, if I wish to be considered for employment, I must submit a new application.

I certify that all the statements contained in this Application are true and complete and understand that any falsification or willful omission shall be sufficient cause for termination or refusal of employment.

Applicant's Signature _____ Date _____

Byers Engineering Company is a national provider of leading-edge geospatial software and engineering services for the utility and telecommunications industries. We believe that our employees are the key to our success, and we strive to provide an attractive, competitive benefits program.

WHO WE ARE

Byers Engineering Company is a Georgia corporation founded by Kenneth G. Byers, Jr. in 1971. Headquartered in Atlanta, Byers has 1000 employees combined in its two divisions – SpatialAge® Solutions and Engineering.

The Engineering division provides outside plant and inside plant engineering, training, staffing, project management, and other technical services for telecommunications, cable television, and power companies and for internet service providers throughout the United States.

The SpatialAge® Solutions division (formerly known as the Information Systems division) focuses on the development of leading-edge AM/FM/GIS software, data conversion, mapping and records services, consulting, and implementation.

We take an entrepreneurial approach to management with a long-standing policy of promotion from within. We provide open access to an active and involved management staff and owner. We enjoy a casual working environment that values a free exchange of ideas from all levels of the workforce.

Byers Engineering has field offices nationwide and has built a solid reputation in our industry.

We offer the diversity you need for a stable career in the utilities industry, from OSP engineering to project management and technical training and from software development to mapping for the telecommunications, electric, gas, and CATV industries. We are an equal opportunity employer.

OUR MISSION

Our mission is to provide high quality technical services and software solutions to the communications, utility, and government industries and, in doing so, to earn the highest respect possible for the firm from our clients, suppliers, and employees.
